

August 13, 2010 Annual Meeting

Due to the extreme thunderstorm and high winds that passed through Manhattan the afternoon and evening of the MHSAA 2010 Annual Meeting and summer picnic, several officers of the organization were unable to attend the meeting and no minutes were recorded or pictures taken. A number of members, who were from areas of town where the winds had not closed streets, brought dishes to share and reportedly had a good time. Radios were cautioning people to stay off the streets and some were told the picnic had been canceled, so with the weather as wild as it was that night, the turnout was rather remarkable. We hope for a beautiful and calm evening for 2011.
